ST. VIATOR COLLEGE

HISTORICAL

St. Viator College was founded in 1868 for the higher education of Catholic youth. Six years later it received its University charter from the State Legislature of Illinois. By virtue of this charter the institution is empowered to grant degrees in Arts, Sciences, Letters, and Philosophy.

BUILDINGS. In a few years the first college building was inadequate to accommodate the large number of students who came to avail themselves of the advantages which St. Viator College presented for a liberal education. To meet this demand a new building was added in 1874 and an addition was made in 1879. Roy Memorial Chapel was built in 1889 as a monument to the zeal of the first President, Father Roy. The Gymnasium, a very spacious building, was completed and equipped in 1901. Gradually the original plan for a college that would accommodate five hundred students took form, but just as its completion was about to be reached, the buildings were reduced to a pile of crumbling ruins by the fire which occurred on the evening of February 21, 1906. The destruction was almost complete, the new Gymnasium being the only building which escaped the flames. Fortunately this building was large enough to be transformed into class rooms, study hall, dormitories, and refectory for the advanced students.

NEW BUILDINGS. Immediately after the destruction of the College, the Board of Managers met and decided upon a general plan for the disposition of the buildings requisite to meet the needs of this constantly growing institution. According to this plan the new College will consist of a double row of separate buildings extending north and south through the old campus, and closed at the south by a chapel facing north. Four of these buildings are now completed. While the exterior and general appearance of the buildings has not been neglected, special pains have been taken to make the interior as cheerful, comfortable, and serviceable as is consistent with the purposes of a college. The entire college is built of stone.

MUSIC ROOM

Fire-proof material has been used, and to insure further the safety of the students the dormitories are on the second floor, and each building has two wide iron stairs. The most approved modern appliances for heat, light, and ventilation are used. The class rooms, dormitories, study halls, and corridors are spacious, lightsome, and cheerful. The living rooms, pleasantly situated with east and west exposures, are commodious, heated by steam, lighted by electricity, and supplied with hot and cold water.

MARSILE ALUMNI HALL, which the generous and ever loyal alumni of St. Viator's intended as the completion of the original plan, is the beginning of the new plan. This building, facing the east, is 160 feet long and 82 feet wide and four stories high. The first floor is Administration Floor, the Dormitories occupy the second floor, and study halls and class rooms the third and fourth floors.

ROY HALL contains one hundred and ten private rooms for the Professors, Seminarians, and those students who desire to rent rooms. This four-story building, situated south of the Gymnasium, has a west frontage of 172 feet and a depth of 50 feet.

GYMNASIUM. The fact that the only building which escaped the fire was the new Gymnasium made it possible to have all the buildings up to date in every detail. The erection and outfitting of this spacious building, which was formally opened October 21, 1901, are due to the generous assistance received from former students of the College. Its cost is estimated at \$46,000. The building presents a pleasing appearance; it is a massive stone structure 153 by 97 feet. The interior is finished in enameled brick and Georgia pine. Like the other College buildings, it is lighted by electricity and heated by steam. Its equipments leave nothing to be desired in the way of facilities for military exercises, handball, indoor baseball, billiards, pool, bowling, and other games that rob the winter months of their dreariness and at the same time afford excellent opportunities for healthful physical development. Attached to the Gymnasium are shower baths, closets, reading

rooms, armory, music room, barber shop, and the confectionery store. There is also a fully equipped stage and an auditorium with a seating capacity of 1,500.

THE HEATING PLANT occupies a central position to the rear of the Gymnasium. The Webster system of steam heat is installed. In connection with this building is the public water works, which makes the college system of plumbing as complete as could be had in any modern city.

SCIENCE HALL is well equipped for a thorough course in Physics and Chemistry. It contains four large rooms, the Chemical Laboratory, the Physical Laboratory, the Lecture Room, and the Private Laboratory.

LOCATION. Bourbonnais, Ill., where the College is situated, is fifty-four miles south of Chicago and three miles north of Kankakee. It is easy of access via Kankakee, on the main lines of the Illinois Central and the Big Four, the Bloomington branch of the Illinois Central, the Chicago, Indiana and Southern, and the Kankakee and Seneca railroads. Interurban cars leave frequently from Seventy-ninth and Halsted streets, Chicago, for Kankakee. Electric cars run from Kankakee to the College grounds every half hour.

Proximity to the great metropolis of the west, railroad facilities, the rich and populous surrounding country were not the only considerations that induced the Viatorians to found a college at Bourbonnais. The healthfulness of the location and the natural beauty of the scenery made it an ideal spot for a college.

MORAL TRAINING

The education which the College wishes to impart is that which procures the harmonious development of the entire man. It is of the completest kind, and embraces both intellect and will, the head and heart, knowledge of duty and virtuous habits. Hence a course of religious instruction, graded according to the capacity of the students, runs parallel with the course of secular studies.

The system of discipline enforced aims mainly at the development of character. Hence the greatest care is taken to instill into the minds of the students those lofty principles of Christian morality which will make them feel at all times that right conduct is essential to manhood. A supervision, modeled after that which exists in every well regulated family, is exercised in all the departments. The Professors, whose lives are devoted exclusively to the education of youth, live with the students and mingle with them freely. The intimate relations which arise from this friendly intercourse between student and teacher is a most powerful factor both in developing good qualities and in curbing unworthy tendencies in the young. While the government of the College is mild and parental, the laws of good order, propriety, and morality are strictly enforced. The moral influence of instruction, persuasion, and encouragement is primarily and mainly relied on, and is seldom found ineffectual.

GENERAL REGULATIONS

ENTRANCE. Candidates for entrance are required to bring testimonials of character and class standing from the school which they have last attended. They are classified according to their previous attainments as made known by these testimonials or, in lieu of them, by examination. No one is debarred from matriculation on account of his religious opinions.

New students not presenting credits will be obliged to qualify by examination.

Non-Catholic students are obliged to be present at the ordinary exercises of public prayer and at the familiar talks on those virtues which are the fairest and richest endowments both of youth and of manhood.

If a student loses his time and infringes other regulations of the College, he will be punished, and if necessary expelled. The penalty of expulsion is incurred also for irreligious language or writings, the introduction of infidel or immoral books, the use or introduction of intoxicating liquors, and every species of gambling.

Any person willfully damaging the property of the College must make compensation for the same.

All letters and packages to and from the students shall be subject to the inspection of the President, or his representative. Books, periodicals, and newspapers are likewise subject to supervision and approbation.

Leave of absence cannot be granted to students during the term except in cases of urgent necessity. In such cases the parent should communicate directly with the President. Deductions will be made in the class records for absence from recitations.

Telegrams and letters asking privileges for students must be signed by parents or guardians, and must be addressed to the President of the College.

Visiting days are Sundays, Tuesdays, and Thursdays. Good accommodations for parents and friends are easily obtained in the village.

The students are assigned to departments according to their age and have separate class rooms, dormitories, etc. Young men of 17 and upward are assigned to the Senior, 14 to 17 to the Junior, and those between 10 and 14 to the Minim department.

EXAMINATIONS AND PREMIUMS. Promotion and premiums depend upon daily records and periodical examinations. Two

written examinations are given in the matter studied before Christmas. The semi-annual oral examination given at the end of the first term reviews the first half year's work. The second semi-annual examination, immediately before commencement, reviews the second half of the year's work. In the meantime two written examinations are given, one at the end of March and the other at the beginning of May. Immediately after these examinations the results are read to the student body before the President and faculty. Parents are kept in touch with the application, deportment, and progress of the students by bulletins sent them after each examination. Gold medals and also other prizes for excellence in the various branches are awarded on Commencement day.

COURSES AND METHODS OF INSTRUCTION

THE THEOLOGICAL COURSE comprises all those branches necessary for candidates for the priesthood.

THE COURSE IN LETTERS comprises chiefly Ancient and Modern Languages and their Literature, practical lessons in Literary Criticism, Rhetoric, Composition, and Oratory.

THE SCIENTIFIC COURSE, embracing higher Mathematics and the Physical Sciences, prepares students for special university courses in pharmacy, medicine, civil, and mechanical engineering.

THE COLLEGIATE COURSE embraces all those studies that are required for a liberal education. It prepares young men for the study of law, medicine, theology, and other university or seminary courses.

THE HIGH SCHOOL COURSE prepares the student for entrance into the Freshman class of the College.

THE PREPARATORY COURSE supplies what is deficient in the student for entrance into the high school.

THE COMMERCIAL COURSE comprises all the branches of a finished business education. Graduates in this course are awarded diplomas which are attestations of their practical business ability.

SPECIAL STUDENTS. Provisions are made to supply what is deficient in those students who lack some of the requirements for unconditional entrance to any regular class. In exceptional cases some students are allowed to omit or discontinue a prescribed study. Such students are not eligible for the Degree of Bachelor of Arts.

METHODS OF INSTRUCTION. In the earlier years of each course the method of questions and answers is followed; this method is combined with the lecture system in the more advanced classes. The most approved text books are placed in the hands of the students, and teachers avail themselves of every advantage which the progress of pedagogical science affords in order to further the rapid and solid advancement of their pupils.

DEGREES

The act of the Legislature, under which St. Viator College was incorporated empowers the Board of Managers "to confer such academic degrees and honors as are conferred by Colleges and Universities of the United States."

REQUIREMENTS. The degree of Bachelor of Arts is conferred upon those who have passed satisfactory examinations in all the branches of the Collegiate Course as outlined in the Catalogue.

Bachelors of Arts may, by applying to the President and Faculty, receive the degree of MASTER OF ARTS, provided they shall have devoted at least two years to literary pursuits.

LIBRARY

The students' Library, which before the fire contained about 20,000 volumes, will practically have to be started over anew, as only about 2,000 books were saved. We take this occasion to appeal to our friends to help in founding a library that will surpass the one destroyed. Special libraries may be donated to the different societies and be named after the donor. So far we gratefully acknowledge the receipt of several hundred volumes from the late Rev. J. J. Callaghan, Butte, Montana; Rev. M. A. Dooling, of Henry, Illinois, and Hon. W. J. Onahan, of Chicago. An annual fee of one dollar is imposed on every student. This revenue is used for the improvement of the library.

VIATORIAN

The Viatorian is a monthly publication in which the thought of the advanced classes in various courses of study finds expression. It deals chiefly with historical, literary, scientific, and philosophical subjects, offering students an incentive for greater efforts and more perfect work in the various branches of study.

The Viatorian also chronicles the most important events of student life at the College, the celebration of college feasts, the doings of the various dramatic, musical, literary, oratorical, athletic, and military organizations of the institutions. These accounts, together with columns of personal notes, are of interest to former students. *The Viatorian* also records the monthly progress of students and publishes the list of winners of distinctions at the regular readings of the class, and conduct notes. Thus the monthly visits of the College journal inform parents and guardians of the advancement of their children and wards.

The College journal first appeared in 1882, and it has ever been the ambition of the students to maintain the high standard of excellence which has won them the encouragement of a host of friends as well as the most complimentary notices of other college journals.
