

Wit consists in knowing the resemblance of things which differ and the difference of things which are alike.
—M. DeStael.

The world is blessed most by men who do things and not by those who merely talk about them.
—James Oliver.

I View With Alarm

By J. Rondy

What I should do is view something with alarm. At least that is what people tell me. "If you want to be a writer among writers, you can't just talk about declining birth rates, television, or women's hats and then put your feet on your desk and be at peace with yourself and your fellow man. "No", they continue, "to please the public you have to fill yourself with apprehension, climb on a platform with fiery eyes, and 'view with alarm.'" In short, I am told that it is just the ability to unveil insidious, lurking danger that makes statesmen out of politicians and journalists out of reporters.

But am I going to 'view with alarm'? I am not. And let me demonstrate the reason why.

Suppose you saunter out of your room on a sunny morning, feeling like a meadow lark with a meadow all to himself. Some fellow who rooms down the corridor will come along and, as soon as you have settled the weather question, will start 'viewing with alarm'. "Yes sir", he will begin, "this country is changing fast. Take the American girl,— (Now you, more than likely don't want the American girl. You probably have just one American girl who is more than you can efficiently handle, and have no desire to have the whole group on your hands. But because you owe this fellow four bits, or because you are wearing his shirt, you can't tell him to take the American girl himself). So he goes on.

"Take the American girl: Look at her red finger nails; (how can you help but look!) their very mothers got red hands scrubbing floors". Of course the Declaration of Independence says something about "pursuit of happiness" and if the girls think they can catch up with happiness with red finger nails, maybe you think "o. k., go to it". But you might just as well keep quiet because this fellow from down the corridor is into his subject, and persuasion or force won't stop him.

He gets confidential and tells you that half the women of his acquaintance alter the color of their God-given crown. He will declare that this proves them to be trying to be something they are not. Now, this lad is probably dressed in tweeds and is carrying a wallet which contains nothing more than an identification card and a used Bradley-Bourbonnais transfer, but it does not occur to him that he is doing a little plain and fancy misrepresenting on his 'own hook'. Well, he tells you about postage-stamp hats and cigarette smoking, and by the time you get to class (if that is the place to which you are going) you are profoundly worried about the future of American womanhood, and your whole day is spoiled, — all because somebody 'viewed with alarm!'

Yes, this viewing with alarm amounts to nothing less than a major social problem. Consider American advertising. The 'view with alarm' approach is a ritual that must be gone through before the advertised product is even mentioned. Take the soap ads. From billboards, radios, and newspapers from coast

St. Viator Places Third In I. I. A. C. Basketball Race

The close of the current basketball season found Illinois Wesleyan University undisputed champions of the Little 19 conference while Carbondale, Augustana and Macomb tied for second place and St. Viator, Knox and North Central were tied for third place. The past season saw many upsets and it is notable that Viator holds victories over one of the second place teams, Macomb, and over North Central, one of the co-holders of third place.

League Standings			
College	W	L	Pct
Illinois Wesleyan	16	0	1.000
Carbondale Teachers	8	2	.800
Augustana	8	2	.800
Macomb Teachers	12	3	.809
ST. VIATOR	10	4	.714
Knox	5	2	.714
North Central	5	2	.714
State Normal	9	4	.692
Millikin	9	5	.643
Carthage	7	5	.583
Bradley	4	9	.308
Eureka	4	10	.286
Monmouth	2	6	.250
Charleston	2	6	.250
Elmhurst	2	7	.222
Shurtleff	2	7	.222
Illinois College	2	8	.200
McKendree	2	8	.200
DeKalb Teachers	3	12	.200
Wheaton	2	10	.167
Lake Forest	0	2	.000

SPRING FOOTBALL CALL SOUNDED

Coach John McNamara has issued a call for football candidates to report on March 18th for the spring practice. McNamara announces that the practice will last approximately three weeks and shall consist of the general loosening up exercises and a drilling of the squad in the fundamentals of the game.

There is also a possibility, according to Coach McNamara, that the final week of practice will see the Irish gridders engaging in one and possibly two scrimmages with Illinois Wesleyan gridders. Coach McNamara claims that Athletic Director Harry Bell of Wesleyan has agreed to do this if Wesleyan has spring training for its football squad. It is believed that if there are two scrimmages, one will be held at each college field.

Administration Hears College Club Petitions

Stephen Gould, '36, was kept busy at a meeting of the College Club the first of the month when the student body went on a spree of introducing motions. The chair was able to cut discussion short on some of the student demands, but was unable to check a motion to petition the Administration for a two-day St. Patrick's holiday.

Motions were also carried to ask the College Council to open the dining hall at 11:50, and to change the chapel hour from 7:30 to 6:15.

Later in the week it was announced that the Administration had granted the change in the dinner time, had refused to consider a new chapel hour, and had moved the holiday from Tuesday to Monday.

Three Conference Losses Force Wranglers Into Third Position

Defeat of both teams in the last round of the Normal tournament last week forced Viator debaters into third place in the Illinois Intercollegiate Debate League. Until the last meet, Viator was tied with Wheaton College for first place in the race. The local teams secured five decisions and went down before three opponents.

Norbert Ellis, '36, and Stephen Gould, '36, affirmative, defeated Bradley College and Olivet College. They lost to Eureka College and Northern State Teachers.

August Black, '38, and Edward Buttgen, '37, won from Greenville College, Western State Teachers, and James Millikin University. They suffered defeat at the hands of Wheaton College, the winner of the cup.

Viator Third
Statistics on the tournament show

that there were 36 affirmative victories and 32 negative wins. The percentage standings of the schools which lead the 17 colleges in the meet are:

Wheaton College	875
Lake Forest College	750
Eureka College	750
St. Viator College	625

Reception for Contestants

The Wesleyan and Normal chapters of Pi Kappa Delta gave a reception for the 68 debaters, their coaches and attendants at Fell Hall Friday night. Miss Virginia Abbot, president of the Normal chapter, was in charge of arrangements and acted as hostess.

The Illinois Intercollegiate Debate tournament luncheon was held in Fell Hall at the conclusion of the meet.

Wesleyan Cagers Defeat Viator 5 By 35-24 Count

Irish Become Number 20 In List Of Wesleyan Victims As Little 19 Champions End Season

Illinois Wesleyan, Little 19 champions, took St. Viator cagers in its stride before a crowd of 2,000 in the College gymnasium on March 10 and thereby concluded an unbeaten season of 20 triumphs. The score was 35 to 24.

Viator got away to an early 6 to 0 lead on Wesleyan through some uncanny shooting on the part of Bud Monahan. Tossing in three successive field goals, Monahan plunged the Irish out in front but Cochran's field goal and free throw and a field basket by Wallace midway in the first half gave the lead to the Titans and they clung to that margin for the remainder of the battle. The score at the half was Wesleyan 14, Viator 10.

Viator stayed in the thick of the battle until midway in the last half when Wesleyan surged to a 23 to 13 lead.

Weaton Falls Before Irish Basketeers

Green Wave Cagers Down Wheaton Quintet In Two Games: 47 to 27 and 35 to 26

Playing Wheaton College cagers twice in one week because of a postponement of an earlier game, the St. Viator bucket makers racked up two conference victories. The first game, which was played at Wheaton on March 7, saw the Irish using an entirely different brand of ball than that usually associated with them. Handicapped by a 30 by 60 foot court the Irish had difficulty in breaking loose the first half and only had a 19 to 10 lead. Lead by "Wee Willie" Walsh, who made 4 baskets and 3 free throws, the Irish swarmed all over the floor in the second half and ran up a top heavy 47 to 27 count.

Wheaton Surprises

In the return game played at Viator on March 12, the Wheaton cagers, fighting desparately and taking advantages of an overconfident Viator quintet, threw a mighty scare into the Irish players. Guarding closely and fighting for every point Wheaton left the floor at half time with a 9 to 8 count in their favor.

In the last half the Viatorian quintet regained some of its smoothness and dexterity and managed to flip in enough baskets to take the stubborn Wheaton cagers into camp by a 35 to 26 score. Bill Walsh again proved to be the man of the hour along with Danny Blazeveich. Both of these players were responsible for the Irish rally that finally brought a hard earned victory.

Honor Society Offers Members Special Rights

Dean Discusses Plans For Recognition of Scholars

The organization of an honor society, the exact nature of which has not yet been fully determined, was begun Monday by the College Administration. Membership in the society, which will depend upon a student's being listed on the semester honor roll, will entitle the student to certain individual privileges.

The first step in the granting of these privileges was made Monday when the President announced that all students whose names appeared on last semester's honor roll need notify only their respective corridor prefects when leaving the campus. Heretofore, it has been necessary to receive the permission of the President when desiring to remain off the campus.

Some method whereby a permanent recognition may be given honor students is also being considered. The suggestion has been made that their names be enscrolled on a plaque to be hung in the library. This, it is pointed out, will serve the double purpose of honoring the students and of encouraging future students.

When interviewed, the Rev. Bernard Mulvaney, C. S. V., acting dean of studies made this statement:

"Studies on grades reveal that the honor roll students consistently over-reach their expected averages as calculated from intelligence quotients. While many factors may enter into the determination of the grades which a student receives, it seems that this persistent tendency of the honor students to use their abilities more than do the generality of students is an indication of a more earnest application to work. Efforts, therefore, are being made to give recognition to honor roll students.

"Some students, it seems, will be assured of the advantages granted during all their college days. Their names are always on the honor roll. Among these, the following have obtained the listed average grades during the past three semesters:

"Patrick Toomey—4.9; Marshall Lamore—4.8; William Maloney—4.7; Michael Ronahan—4.7; Francis T. Williams—4.6; Edward Buttgen—4.5; Joseph Prokopp—4.4; Sam Hamilton—4.4; William Neudecker—4.2; Joseph Rondy—4.2; Stephen Gould—4.1."

Biology Club Issues Own Campus Paper

The first issue of a bi-weekly bulletin published by the newly formed Biology Club appeared on the campus March 9. The bulletin, a two-page mimeographed sheet, contains many well-written articles of local interest, and the club has received the congratulation of the College in its undertaking.

The publication points out the phenomenal growth of the department of Biology this year. The present enrollment in the course shows an increase of 60 per cent over that of last year; and 33 per cent of the student body takes courses in biology.

BENEATH THE SURFACE

During the interlude of these warm, bright days, the harbingers of spring, when the mind grows lazy with relief from the bluster of winter, men seldom want their peace broken by editorial criticism. So today we shall merely look through the paper again to see what is behind the news.

In "View With Alarm", Joseph Rondy has painted a picture humorously real. Everyone knows the prototype of the man he shows us, and everyone has inwardly laughed at advertising slogans, though most folks will not stop to analyze their reactions. Rondy has caught the thread which makes our work-a-day world more endurable by allowing us to laugh at ourselves and our neighbors. . . . The basketball players and the debaters deserve high commendation. Both have made records not equalled for several years. We notice that the writer of the debate article failed to record that Father Stafford accompanied the teams to Normal and acted as a judge in the tournament. Such is often the fate of men behind the throne.

The reporter of the College Club meeting seems to have only hinted at what was in his mind when he wrote about the motion for a holiday. He might have grown cynical over college men who abuse their organization by asking for an unwarranted vacation. A commentator justly summarized the motion when he inquired after the meeting, "Why didn't the fellows ask to discontinue school during Wednesday and Thursday also?" The club only hurts itself when it becomes as juvenile as this motion made it.

The Administration has received much favorable comment on its introduction of the Honor Society. The organization will place privileges where privileges are usually due. The VIATORIAN offers congratulations to the Biology Club on the first issue of its paper, and thanks the club moderator for permission to use items from the bulletin.

I View—

(Continued from Page One)

to coast, they scream: "Poor Olive was a nice girl, but harsh soap ruined her romance. Only Mystery Soap will give that milk and honey complexion". Now, these people are trying to sell a product whose primary function is to clean, but how do they begin? By viewing Olive's (our your) romantic life with alarm.

Or take another example: "That cold will drive away your best customer! Kill it with Presto Pills". Now, maybe the poor reader hasn't a cold, but the Presto Pill company is so worried about his future that he gets a good talking to anyway.

And so it goes on and on, from the time one arises in the morning until he retires at night. A 'view with alarm' is ever present—either implied or explicitly stated. But I

am firmly convinced that no good will come of it. In fact I VIEW THE WHOLE TENDENCY WITH ALARM.

MAKES GOOD

FRANK STRAUB

Handicapped by injuries received late in the football season, Frank was unable to be of much value to the basketball squad until near the middle of the season. Even then after breaking into the lineup, Straub's knee bothered him. However, in the last six games of the past season he recovered his ability and was responsible for many of the wins racked up by the Green Wave cagers. Frank played 392 minutes during the past season and scored 77 points. He was regarded by Coach McNamara as one of the best defensive men on the Irish squad.

W. Krauser Named Tennis Manager

Weeger Krauser, '38, a resident hailing from S. Ignatius High School (Chicago), was recently appointed manager of the tennis team by the Very Reverend Dr. E. V. Cardinal, C. S. V., President of the College and tennis coach. Krauser has announced that he will soon be able to release the Viator tennis schedule. It is his hope that he will have at least four Little 19 meets and that a team will be sent to North Central for the Little 19 Tournament.

Repairing Courts

One of the first actions of the new manager was to secure a crew of tennis enthusiasts to work upon the courts. At the present writing, Krauser and his crew of volunteers are spreading a clay dust upon the courts. This dust, when dampened and allowed to dry, forms a concrete mixture that makes a wonderful court.

Assets of Temple University, Philadelphia, have risen \$6,000,000 in ten years.

BIOLOGY BULLETIN

TO ESTABLISH COLLEGE MUSEUM

Under the direction of Leo V. Nolan, C. S. V., plans are being made for the establishment of a college museum.

St. Viator has not had a museum, as such, since the fire of 1906, which consumed the building containing the St. George Mivart Scientific Association collection. Since that time, many museum pieces have been donated to the College and collected by members of the faculty. These, for the most part, have been housed in the cases belonging to the Department of Biology.

This week a collection of Indian worked flints, belonging to Wallace Cullen, '39, and loaned to the museum, is on exhibition in the biology laboratory, along with a number of other Indian relics belonging to the museum.

The present effort to collect and arrange the relics and material is sponsored by the Very Rev. Dr. Edward V. Cardinal, C. S. V., and Dr. W. C. VanDeventer, professor of Biology.

WOODLAND ITEMS

By Dr. W. VanDeventer

In connection with the recent

breaking of the ice in the Kankakee river, which accompanied a two to three foot rise, trees as large as eight inches in diameter were bowed over and broken off by the weight of the moving ice. The fact that many of these trees were from fifteen to twenty years old indicates that such a mass of ice in the river at flood stage is a relatively rare phenomenon.

In addition to the trees, practically all of the river-edge thicket vegetation was seriously damaged by having large portions of its bark stripped off through the action of the ice. Since the river-edge thicket normally furnishes a home for several species of birds and shore-edge mammals, its partial destruction was a biological event of considerable importance.

A Harvard zoologist risked his life to enter his burning home the other day. He was after a set of corrected exam papers.

What Is MORTEX?

Perfect
 Preservative
 Protection

Liquid
 Emulsified
 Asphalt

A perfect protective coating for brushing, spraying or trowelling, being a high grade Mexican asphalt dispersed as minute particles in water for convenient handling. It is applied cold. As the moisture evaporates, a black, flexible rubberlike film remains which is waterproof, acid, alkaline and fire resistant, and shuts out infiltrations of air.

Mortex 5 does not crack or peel in coldest weather, nor blister, sag nor run on hottest days and always remains elastic. It is odorless, tasteless and nonflammable and can be safely used in confined places. It readily bonds to all clean surfaces, and also to damp surfaces, but should never be applied over dusty, dirty, greasy or oily surfaces or an imperfect bond will result. Use only on clean surfaces to obtain perfect satisfaction.

Used for DAMPPROOFING WALLS and FLOORS, PAINTING GALVANIZED IRON, PROTECTING CLEAN IRON AND STEEL, ROOF REPAIRING and as an ADHESIVE. It can be mixed with Portland Cement and dries out a soft gray color for patching deteriorating concrete.

Spunky Uhlans Provide Battle In 37-30 Game

Viator Downs Valpariso Second Time This Season

On March 3rd the Green Wave basketball quintet defeated a stubborn Fighting Uhlans cage machine in the college gymnasium by a 37 to 30 count. The Irish of Viator had a 19 to 16 lead at the halfway mark. The lead changed hands numerous times during the last half and it remained for Tom Gibbons to enter late in the game and provide the necessary impetus for another Viator triumph.

Waldorf Quits M'Kendree Post

Lebanon, Ill.—(IIP)—Paul Waldorf announced recently that he had accepted a position as football coach at Fort Hays State College, Hays, Kansas, and that he would leave for the Kansas school on March 3 to supervise spring practice.

Waldorf, football and track coach at McKendree College, will return later to complete the school year. He has coached at McKendree the past three years. Viator fans will remember him because of the terrific licking his squad gave the Green Wave gridders this past season.

Ph. D's are almost certain job-tickets today, says Northwestern University's placement bureau, with starting salaries averaging \$200 monthly.

Hockey was first played in America in 1901, starting at Vassar, Bryn Mawr, Smith and Harvard Summer School.

BUDDING STAR

BOB LENAHAH

Bob played just 39 minutes during the past season, not because he wasn't good enough to play more but rather because of the excellent calibre of his squad mates. During the short time that he did play, Lenahan gave every evidence of being a future star on Irish cage machines. He scored 15 points, usually when they were most needed, and has a record of making 26 per cent of his field goals and 50 per cent of his attempted free throws.

An M. I. T. chemical warfare class was routed recently when someone tossed a regulation army tear-gas bomb into the room.

Reserves Wind Up Season With Win

In a preliminary to the Wheaton-Viator game on March 12 the St. Viator Reserve basketball team brought a successful season to a close in a blaze of glory as they downed the Manteno Monarchs, 39 to 23.

Previously to this game the Reserves had a record of 5 won and 5 lost. Record for the season:

- Reserves 35; Chebanse 14
- Reserves 26; Lockport 18
- Reserves 22; Millers 13
- Reserves 27; Cooley's 35
- Reserves 31; Sheldon 22
- Reserves 27; Cooley B 19
- Reserves 24; St. Anne 32
- Reserves 33; Gallagher 34
- Reserves 28; Joliet 33
- Reserves 29; Lutherans 32
- Reserves 39; Manteno 23.

Each Puff Less Acid

A LIGHT SMOKE

OF RICH, RIPE-BODIED TOBACCO

For twenty-five years the research staff of The American Tobacco Company has worked steadily to produce a measurably finer cigarette—namely, a cigarette having a minimum of volatile components, with an improved richness of taste—"A LIGHT SMOKE."

We believe that Lucky Strike Cigarettes embody a number of genuinely basic improvements, and that all these improvements combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

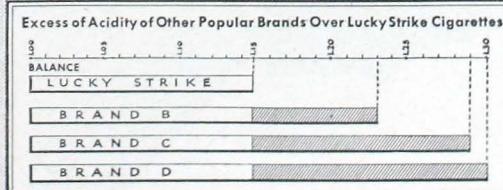

Luckies—"IT'S TOASTED"

Your throat protection—
against irritation—against cough

Luckies are less acid

Recent chemical tests show* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS

Baseball May Be Revived Here As A Major Sport

With the carding of two inter-collegiate games with Wright College of Chicago, increasing rumors have been flying about the campus that the Rev. F. J. Harbauer, C. S. V., athletic director, may be intending to list baseball as a varsity sport once again. In the past St. Viator College has been noted for the number of championships her nines have won and also for the number of her players who have gone into major leagues and made good.

If St. Viator athletic authorities do revive baseball it is certain that a number of games can be secured with other Little 19 colleges as well as with many other colleges here in the Middle West. Great student interest is being expressed in this matter of "rumors" and it is hoped that within the next few days the Board of Athletic Control will have decided upon the policy it is to pursue in this matter.

Education note: In the Southwest, a "soup-bane" is a personal check, and the Dean of Men is known as the "boot-giver".

The Collegiate World

(By Associated Collegiate Press)

"What", asks Columnist Bill Kennedy of the University of Minnesota Daily, "is so wonderful about Walter Johnson throwing a dollar across the Rappahanock—with the dollar inflated the way it is!"

The newest organization among college men is the VFW, a military organization. It means: Veterans of Future Wars, and the organizers maintain they ought to have their bonus through Congress by July at least. It all started with students at the Virginia Military Institute and already has a chapter in Alaska so they say.

For Washington's birthday, the University of Wisconsin Historical museum displayed autographs, portraits and mementoes of the great general. Of chief interest however, was a white shirt Washington used to wear. On it, written in indelible ink was this, "Geo. Washington No. 8". Apparently laundries have not changed.

The still popular expression, "Oh Yeah?" is not as inconsequential as one might think, according to a speaker at Hunter College. "It is tragic in its implications", he said, "It is as eloquent of world weariness as the bitterest cry of the disillusioned from Ecclesiastics down to Dreiser and Lewis. It bristles with

challenge". And those of us who have to listen to it—we bristle too.

QUOTABLE QUOTES—

"Today it almost takes a cipher expert to read the handwriting of the average schoolboy". The editor of the Harvard Alumni Bulletin announces, sorrowfully, that the typewriter has come to stoy.—(ACP).

"Industrial firms are once again sending scouts to the colleges, seeking prospective employees". Prof. Donald Parks, Toledo U. personal director, points to a ray of sunshine.—(ACP).

MOTHER ADDENDS CLASSES FOR COED

Greenville, Tex.—(ACP)— Laura Crawford, Wesley Junior College coed, had to go to bed, because the doctor ordered it; but that didn't prevent her from attending classes. She did it by proxy, sending her mother daily to pick up assignments, at the same time turning in previously-assigned work. The system brings high grades, Miss Crawford reports.

*I wouldn't give
 that for a cigarette
 that doesn't Satisfy
 ...that doesn't give me
 what I want in a smoke*

I want my cigarette mild, of course—I hardly think anybody enjoys a strong cigarette. But deliver me from the flat, insipid kind.

I find a great deal of pleasure in Chesterfields. They're mild and yet they seem to have more taste and aroma. I enjoy them.

*They Satisfy... just about
 all you could ask for*
