ST. VIATEUR'S COLLEGE.

PROSPECTUS.

This Institution, situated about fifty miles south of Chicago, and two and a half northwest of the city of Kankakee, is under the charge of Priests of the Congregation of St. Viateur. It was founded in 1865 and chartered by an act of the State Legislature, February 24th, 1874; so that it has the power of conferring the honors and degrees that are granted by Universities. During the past year, the College buildings have been enlarged to nearly double their former size, and can now afford every accommodation to two hundred students.

The scholastic year is divided into two sessions, the first beginning on the first of September, and the second, on the first of February. Examinations are held at the end of each session, and result forwarded to parents and guardians. When a student presents himself for admission into the College, he is examined by the Prefect of Studies and assigned to such classes as may suit his attainments. No student from another College will be received without testimonials as to his good character, nor will any student of bad or unruly conduct be suffered to remain in the Institution. To this last regulation the Faculty will most rigidly adhere, since their object is the moral as well as the mental training of youth, and since they are aware how liable the young are to be influenced by evil example.

Students will be received at any time during the scholastic year, though it will be much more to their advantage to enter the

Institution at the beginning of the September session. No deduction will be made in the pension, and no money refunded, except in case of dismissal or protracted illness.

The Faculty look upon it as a matter of strict duty to spare no pains in order to the improvement, the happiness and the comfort of their dear pupils. Hence they have secured a staff of competent and conscientious Professors, and have fitted up the study halls, the class rooms, the dormitories, etc., of the Institution with first-class furniture.

As to the quiet village of Bourbonnais and the surrounding neighborhood, it can with all truth be said that no where in the whole State of Illinois is there a more healthy locality, nor one more adapted for an institution of learning. Unlike the greater portion of Central Illinois, Bourbonnais has the advantage both of wood and water, being situated just on the verge of an extensive grove of forest trees, with the beautiful Kankakee river at the distance of only three-quarters of a mile. Thus it will be seen that the wearied student will have the best opportunities for healthful and innocent amusement.

With these and other advantages to recommend St. Viateur's College to the favor of the enlightened public, the Faculty have every reason to hope even for an increase of the prosperity with which God has hitherto seen fit to bless their labors.

The following are some of the principal regulations that are to be observed by the students:

RULES.

1. Every Catholic student will be bound to practice his religion.
2. The religion of non-Catholic students shall not be tampered with; but, for the sake of order, all will have to attend the exercises of the College.
3. The students will obey all summons of the bell in silence.
4. Students will show deference towards the President and Faculty of the College.
5. Use of intoxicating liquors absolutely prohibited.
6. Tobacco and card-playing also prohibited.
7. No one will leave the College without permission from proper authority.

8. The morals of the students will be weekly reported to the President.

9. The notes of progress will be read each week.

10. The names of those who have distinguished themselves shall appear on the "Tableau d'Honneur," which will be placed in the parlor for inspection by visitors.

11. It is especially requested that all students observe to the very letter the above regulations.

Natural Philosophy—Chemistry; Botany; Mineralogy.

Mathematics—Astronomy and Mechanics. Evidences of Christianity.

EXTRA.

German and French languages are taught by competent professors. Every opportunity is given to the students who desire to learn those languages, not only to study the grammar and to read authors, but also to converse familiarly. Telegraphy and receiving by sound is also an optional branch of study, and requires one year, during which the student may learn not only to send and receive telegrams, but also acquire a full practice of fixing batteries, fitting up a complete telegraph office, etc.

Vocal Music, theory and practice, forms a regular branch of study for all those who show any disposition towards it; but Instrumental Music—Piano, Violin and Flute—is optional.

Labor improbus Omnia Vincit.
