## MONOGRAM MEN HONORED AT BANQUET

### Critics Favor New Book By The Rev. Dr. Cardinal

College President Writes of Cardinal Compeggio; Answers Need Expressed By Historians of Reformation.

The first copy of a fascinating book, *Cardinal Lorenzo Compeggio, Legate to the Courts of Henry XIII and Charles V*, by the Very Rev. Dr. Edward V. Cardinal, C. S. V., came from a Boston press last month. In the work, Doctor Cardinal has presented a clear cut biography of a tremendously interesting man, and has treated justly a character whom history has misunderstood.

Material for the book was gathered by the author from the Secret Archives of the Vatican in Rome and the Family Archives in Bologna while he was studying in Europe recently.

#### Interesting Subject

The life of Cardinal Compeggio was a life full of diplomatic intrigue and activity. He played a leading role in the drama of King VIII's divorce proceedings. The failure of his attempt to save the Lutherans for Rome fills one of the most interesting chapters in the annals of the Reformation.

Although Cardinal Compeggio plays a large part in history, it is remarkable how little attention has been paid by scholars to his life and activities. Dr. Stephen Ehse, a distinguished German historian, made the statement that Compeggio's life was worth while writing since he left such an impression on his age. The same idea is expressed by W. Maziere Brady in his *Anglo-Roman Papers*. Monsignor Angelo Mercati, Prefect of the Secret Archives of the Vatican, expressed the need felt by scholars for such a critical biography.

#### Need of Critical Study

Very few men have been more misrepresented than has Compeggio. Most people have the impression—undoubtedly garnered from Burnet's *History of the Reformation*—that Compeggio was the most wicked man of his period.

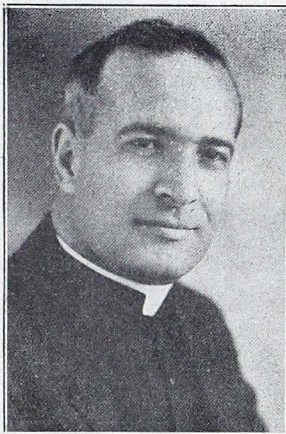

A life of Cardinal Compeggio was published in 1586 by Carolus Sigonius in the *Bishops of Bologna*. This work is useful in supplying a skeleton of the facts necessary in the writing of any biography, but Sigonius made his work an eulogy and not a history. He did not have at his disposal the letters which are found today in the Secret Archives of the Vatican.

This present work is an attempt to carry out the wishes of Ehse, Brady, and Mercati, to correct the false impressions concerning Compeggio, and to arrive at a correct estimate of his influences on the period of history in which he lived.

#### College Library to Profit

Doctor Cardinal has announced that the proceeds from the sale of the book will be given to the College Library. A copy of the book can be obtained for \$2.50 by writing to the Very Rev. Dr. E. V. Cardinal, C. S. V.

### AUTHOR

REV. DR. E. V. CARDINAL

### Speaker Tells I. R. C. of War Possibilities

Professor C. A. Hollister, prominent author and commentator, of Lindblom High School, Chicago, was scheduled to address the International Relations Club on January 20, according to Shirley Lane, '36, president of the club. "Is War Possible" was announced Wednesday as the topic for discussion.

Professor Hollister published several years ago *Causes of the World War*, a book which has been accepted as an authority in its field since that time. The Chicago teacher is a graduate of the University of Wisconsin.

### C. P. A. Hears Talk By Father Maguire

"The Ethics of Collective Bargaining" was the subject of a talk which the Very Rev. J. W. R. Maguire, C. S. V., Dean of the Department of Sociology here, delivered at the annual convention of the Catholic Philosophical Association of America. The meeting, which was one of the most successful of its kind ever held, convened in Cleveland, Ohio, the last of December.

#### Alumnus To Office

The Rev. Dr. Charles A. Hart, a Viator alumnus, now of the Catholic University of America, was re-elected Secretary-Treasurer of the Association. Since graduation here, Doctor Hart has made an enviable record in the philosophical world.

### Feature Panel Discussion On Debaters' Hour

Rockford College Aids In Broadcast Innovation

The Bergin Debating Society departed from the usual procedure of its weekly broadcasts over Station WCFL when it engaged Rockford College in a "panel discussion" on January 11. William Crannell, '37, and Stephen Gould, '36, discussed "The Financial Crisis in the Illinois Schools" with the Rockford representatives.

This panel discussion, the first undertaking of its kind by either school, was very enlightening in view of the difficulties many of the schools have faced the last few years, and the financial hardships many schools have yet to face with their budgets curtailed to a minimum.

### LOCAL CISCANS ANNOUNCE STUDY CLUB PROJECT

At the opening of the second semester, the local Ciscans will sponsor a campus Study Club for the consideration and explanation of the Liturgical Movement, which is demanding nation-wide attention today. The meetings, to be open to all students, will be under the direction of the Rev. M. P. Loughran, C. S. V. Present plans include arrangements for bi-weekly discussions.

Miss Mary Anthony, '37, president, states that this action was decided upon after the club had considered the vital importance and general interest in the Liturgical Movement. Great enquiry into religious problems has been made recently among non-Catholics as well as Catholics, and it has become necessary for the educated man to be acquainted with the principals of his Faith.

### School Mourns Death of C. S. V. Official

A Requiem High Mass was sung in the College Chapel last month for the repose of the soul of Brother Jules Chomienne, C. S. V., Procurator General of the Clerics of St. Viator, and a member of the General Direction of the Order. Brother Chomienne, who died in Belgium, served his Order long and faithfully, and the faculty and student body united on the occasion of the Mass in paying tribute to and praying for the soul of a beloved cleric.

### Quotation Book Lost

The loss of a book, *Elements or Principles of Expression* by Curry, was reported here last week. The book, which contains quotations of prose and poetry, is probably of little value to anyone except the owner, and he is especially anxious to regain possession of it. The finder will please return the book to Professor Maloney or to the Librarian.

### Evans, DeKalb Mentor, Viator Guest Speaker

Twenty Members of Football Squad Admitted To Coveted Monogram Club; Speakers Praise Players.

### Gibbons Named Captain - Elect

At a meeting of the Monogram players of the 1935 football squad, Thomas Gibbons, '37, was elected captain for next year. The meeting was held immediately after the annual football banquet in the College refectory on January 15 and the choice of the players was greeted with the unbound enthusiasm of the entire student body.

Gibbons, a former student of Trinity High School in Bloomington, hails from Mononk, Illinois. During the past three years here, Tom has won monograms for football, basketball and boxing. Upon the football field Tom plays at halfback; on the basketball court he performs at a forward position and when in the ring he is a lightweight of no mean ability.

Prominent alumni and friends of St. Viator athletes attended the annual football banquet on January fifteenth to do honor to the players that had represented the College upon the grid-iron last season. George "Chick" Evans, renowned coach in Little 19 circles and DeKalb mentor for a score of years, was the principal guest speaker of the evening. Lowell Lawson, '14, president of the St. Viator Alumni Association filled the post of toastmaster.

Speakers of the evening included: Jack Gutstadt, editor of the *Bradley Times*; Wm. J. Schumacher, publicity director; Frank Krauklis and Ray Roche, co-captains; John "Doc" Meany, '34, coach of Austin High School in Chicago; Gene Donnelly, assistant Viator coach; Coach John McNamara; the Very Reverend J. P. O'Mahoney, C. S. V., Provincial; Frank Rainey, '08; John Cox, '17, George Evans, athletic director of DeKalb University; the Reverend F. J. Harbauer, C. S. V., athletic director; and the Very Reverend Dr. E. V. Cardinal, C. S. V., president of the College.

#### Letters Awarded

Varsity monograms were awarded by the Board of Athletic Control to 19 members of the 1935 squad and to one manager. The sweater awards were presented to the athletes by Father Harbauer, athletic director. Those receiving major letters were: Don Betourne, Kankakee; Frank Krauklis and Ray Roche, co-captains, Tom Fahey, Bill Etten, Jim Masterson, and Jos. Speaker, all of Chicago; Frank Straub and Tom Gibbons, Bloomington; Al Palladino, Southington, Conn.; Abe Rohinsky, West Haven, Conn.; John Stevens, Springfield; Wm. Walsh, Rantoul; Ray Enders, West Chicago; Tony Marik, St. Louis, Mo.; Bob Schumacher, Urbana; Ray Tures, DesPlaines; Jos. Saia, Greenville, Miss.; and Ray O'Connor, Gary, Ind. A managerial monogram was awarded to Joseph Schmidt, equipment manager of Kankakee.

#### Messages to Team

While each of the speakers of the evening did his best to entertain and made after dinner jokes the main topic of his short speech all injected brief words of praise and encouragement to the squad members. The following are quotes from speeches and were directed to the men who will represent Viator next fall upon the grid-iron:

Lowell Lawson, toastmaster and president of the alumni had this message from the "Old Boys": "Sincere congratulations upon your football season. We alumni pride ourselves on the fact that a Viator athlete is always victorious whether he wins or loses because he is al-

### Choral Club Impressive In Radio Debut

Continuing a tradition of long standing, the Viator Choral Club appeared on a pre-Christmas broadcast over Station WCFL, Chicago, on December 22. The Choralists, under the direction of the Rev. M. P. Loughran, C. S. V., presented a complete program of favorite Christmas chorals, with Raymond Cavanagh, '38, tenor, and Donald Crier, soprano, of Kankakee, as soloists. The numbers were appropriately selected and beautifully rendered. The Very Rev. J. W. R. Maguire, C. S. V., introduced the singers to the radio audience.

### Viator Biologist At Science Convention

Dr. William C. Van Deventer, head of the Department of Biology here, addressed the American Association for the Advancement of Science at its convention in St. Louis, Missouri, on January 2.

Doctor Van Deventer, who presented two papers to the Association, chose for his topics two fields of natural science with which he is intimately acquainted. They were: "Studies On The Biology of the Crayfish, *Cambarus Propinquus*", and "A Winter Bird Community In Western New York".

## Betourne Gathers 23 Points In First League Victory

A rebuilt St. Viator quintet, embracing two freshmen, "Bud" Monahan and "Red" McElligott, started out the current conference campaign in the College gymnasium on January 14 with a blaze of greatness that predicts big things. The Irish met and defeated one of Illinois Eastern Teachers' best teams of recent years in the Little 19 inaugural by a 51 to 24 count. Don Betourne, ace of the past two seasons again proved the leading scorer of the quintet with 9 baskets and five free throws for a total of 23 points.

### Close at Start

The game started out with all the earmarks of being a close contest, Viator bouncing off to a 3 to 0 lead, which margin was quickly erased, and Charleston assumed the lead, 5 to 3, the only time during the entire battle the Teachers headed the parade. Aside from being tied twice in the early minutes and paced at another juncture, the Irish of Bourbonnais blazed the way throughout. Of balance when under the basket during the early minutes of the game, Viator cagers found some difficulty in running up a score on the invaders until the last five minutes of the first half, when they surged down the floor and poured points through the hoop to leave the court at the midway mark on the long end of a 21 to 11 count.

After the half the game had few stirring moments, although several times early in the period Charleston displayed numerous threatening gestures, all of which failed because of the adroit shooting of Betourne and the marvelous guarding and defensive play of Rogers, Blazeovich and McElligott. Coach McNamara sprinkled the floor freely with reserves, using an even dozen, all of whom played an invaluable part in the triumph.

## League Officials Award Conference Meets at Session

Representatives of the Illinois Intercollegiate conference at the annual winter meet of the Little 19 members awarded the minor sports meets, elected officers and carried on the usual business. The projected discussion on the "freshman rule" did not come to the floor.

Minor sports meets were awarded as follows: Indoor track and swimming, North Central, March 21 or 28; wrestling, Wheaton College, March 14; outdoor track and golf, Illinois State Normal College, May 22-23; tennis, Bradley University, May 30. Regional tennis meets will be held at Bradley, North Central, Carbondale and Charleston. The swimming meet would have been possibly awarded to St. Viator if the Viator delegates had cared to accept it.

### Officers Named

Representatives voting for new officers of the Conference elected the following: V. F. Swain, Bradley, president; E. W. Phillips, DeKalb University, vice-president; E. E. Domm, North Central, secretary; and L. M. Cole, Millikin University, treasurer. W. T. Harmon, conference commissioner and superintendent of St. Charles Home for Boys, was reappointed once again.

The first noteworthy action under the new regime was the adoption of a proposal that organized football practice be permitted to open on September 10, instead of September 15. Schools opening before September 10 will be permitted to start football drills coincident with general registration.

## Joliet Jr. Licked by Irish, 41 to 39 In Season Opener

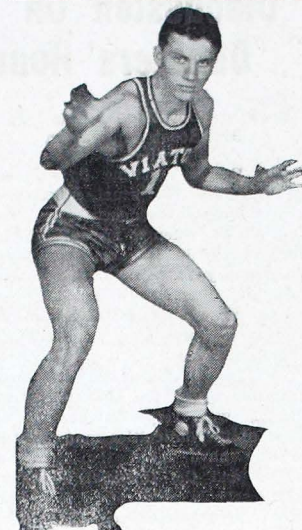

Overwhelming various leads, one of which was an 11 to 1 disadvantage in the first half, St. Viator varsity won an overtime conflict from Joliet Junior College, 41 to 39, on December 12th. The score was tied at 37-37 at the end of regulation time, when Tezak made good a foul toss in the last five seconds of playing time. Viator had been losing at the halfway mark 19 to 17.

Brumund caged a goal in the overtime, but George Rogers matched this with a beautiful long looper. The game appeared to be headed for another overtime when Frank Krauklis, only senior on the squad, set himself for a long shot from the sidelines that sailed nicely through the hoop.

The game finished shortly after Krauklis' heroic basket. Don Betourne, veteran of the past two years, was the spearhead of the Viator attack annexing 15 points for high scoring honors of the evening.

(Continued on page 5)

## SHOWS CLASS

DANNY BLAZEVOICH

Danny Blazeovich, DeKalb youth and sophomore star, is one of the sensational shot makers whom Viator fans have taken to in a big way. Blazeovich is one of the most colorful players to ever wear the Green and White uniforms of the Irish basketballers.

## St. Viator Beaten 42-27 In Tilt With Optometry Cagers

Northern Illinois College of Optometry basketball team defeated the Green Wave basketballers on December 16th, 42 to 27, on the George Williams' court. Taking an early lead, the victors, playing a brand of balanced offensive and defensive ball, piled up a 23 to 12 score at the half, and raced through the second period to their decisive advantage.

Danny Blazeovich, stellar sophomore guard, starred for the Irish garnering 6 buckets and a charity toss while Swanberg, center for the Optometry team, caged 4 baskets and a free throw to lead his team's scoring. It was the second game of the Irish and their first loss of the current season.

## Viator Schedules Illinois Wesleyan For Two Contests

After almost five years of broken athletic relationship, St. Viator College and Illinois Wesleyan, traditional rivals of old, will once again pit athletic teams. The breach was headed through the conciliatory efforts of Head Coach John McNamara and the new Wesleyan Athletic Director, Harry Bell. Both mentors have finally convinced the athletic boards of their respective schools that by-gone misunderstandings should be forgotten and the result is that Viator and Wesleyan will resume athletic relations on January 24 when the Irish cagers invade Bloomington in an effort to down the Titans. The return basketball game will be played sometime in the later part of April or the early part of March.

Coach McNamara also informed the Viatorian reporter that Viator will meet Wesleyan in football next season providing Viator can persuade Northwest Missouri Teachers' to switch dates. Illinois Wesleyan, in case the change of dates can be arranged, will be the Irish opponent on October 2 or 3.

The addition of Illinois Wesleyan to the Green Wave's current basketball schedule assures the Irish of meeting all of the outstanding Little 19 quintets of the season with the exception of the league leading Millikin University cagers. The Irish will engage in 14 conference games during this season. St. Viator meets the following league foes: Charleston, Shurtleff, DeKalb, Normal, North Central, Wheaton, Carbondale, Macomb, Cathage, and Wesleyan.

## Cagers Swamp Olaf In Second Win By 53 To 31 Count

The Green Wave basketballers finished the pre-Christmas schedule on December 19 by waging a lopsided encounter with St. Olaf College of Northfield, Minnesota. Betourne was the leading light of the Irish pitching in 5 field goals and 4 free throws in the 53 to 31 rout.

## Viator Whips Valpo Quintet In 26-22 Game

Flashing moments of offensive brilliance and a sterling defense throughout forty minutes of furious basketball, the Irish cagers managed to eke out a hard earned 26 to 22 victory over the heretofore undefeated Valparaiso University on the Uhlans' home court January the 7th.

Leading a seesaw game at half time by a 13 to 11 count, the Green Wave basketballers were forced to break a 22 to 22 tie in the last half minute of play to garner the victory. The slight margin of victory for the Irish resulted from a lighting-like pass by Don Betourne to Monahan, sensational freshman center, who made a dandy field goal that placed Viator in the lead with only seconds remaining to be played. Danny Blazeovich helped to put the game on ice with another basket an instant later as the gun sounded.

### Monahan Stars

"Bull" Monahan, newest of the Irish cagers, completely dominated the scoring of the evening besides smothering Sauer, Valpo's giant center and big threat. Monahan was high point man of the game garnering 6 buckets and a free throw while his teammate and fellow freshman, "Red" McElligott, secured second high scoring honors with a total of 4 baskets from the field.

Viator displayed a defensive game which had Valpo bewildered. Valpo passes were intercepted and knocked down by the alert playing of Monahan, McElligott, Rogers and Betourne. Offensively Valpo was able to stop the highly touted scorers of the Green Wave but seemed unable to fathom the methods of the new stars. McElligott and Monahan. Betourne, Gibbons and Blazeovich, by means of clever passing and unerring ball handling combined with feints at the basket drew the Valpo defense out of position and then fed the ball to Monahan or McElligott for baskets.

### Sauer Held Down

Sauer, Valpo's highly esteemed giant center, around whom the Fighting Uhlans attack is centered, was kept in check by "Bull" Monahan, who proved to be the main stumbling block in the path of the Valparaiso quintet. Monahan, not only eluded "Whitey" to ring up high scoring honors of the evening, but in his spare moments when he wasn't shooting he made certain that Sauer didn't with the result that "Whitey" caged only two buckets and two free throws, the lowest scoring he has done in any game this season. Karr and Roedel, the other Valpo threats were also kept in submission only adding two baskets apiece to their team's total.

The Uhlans presented a formidable zone defense which kept the

# VETERAN GUARDS

FRANK KRAUKLIS

Holding the distinction of being the only senior upon the St. Viator basketball squad, Frank Krauklis, is a veteran letterman with three years experience. In the season opener with Joliet Junior College Krauklis looped a long shot from the side of the court in the last few seconds of an overtime period to gain a victory for the Irish.

GEORGE ROGERS

George Rogers is playing his third year upon the varsity and is rated by Coach McNamara to be one of the best defensive men in Little 19 circles. At the end of last year's schedule, George was named "Honorary Captain" for the season of 1934-35. An unusual honor to be conferred upon a sophomore but one that was deserved by the quiet Chicagoan.

## College Club Basketball League Holding Interest of Student Body

An Intra-mural basketball league, sponsored by the College Club, and under the direction of Brother Thomas Ryan, I-M director, is vying with the varsity cagers for recognition these days. With seven games played the newly formed league has drawn tremendous crowds every evening and is rapidly becoming the talk of the campus. Each evening at 6:15 o'clock students flock to the gym to see thrilling games that either feature closely battled tilts or rough and tumble games that result in high scores.

## Wholesale Death Made Possible

Berkeley, Cal., (ACP) — University of California scientists have completed the set-up for man's first experiment with a really lethal "death ray", 14 times as powerful as the X-ray, and so dangerous that approach from any direction to within 50 feet is unsafe. The ray is a powerful beam of neutrons, the ultimate particles of atoms discovered four years ago by English scientists.

The first sizeable beam of these neutrons is produced in the heart of the field of an 80-ton magnet by a method discovered by Prof. E. O. Lawrence of the University of California.

Involved, though at present un-

## The FORUM

Dear Editor:  
The swimming season is upon us, and so far, three very high-grade teams have been scheduled to meet St. Viator's aquatic group. We should be proud of the candidates who have volunteered their ability to represent the College in tank competition. In the first place, competitive swimming demands a great deal of training. It tries a man's courage and proves to him that a quitter can not include himself in the sport. It takes courage to torture yourself in the early season work-out; and to experience the nausea that is brought on by the additional training denials. A coward or a quitter never makes the grade. It is twice as difficult for them to have to plunge themselves into water of an uncomfortable degree. It's hard for them to keep their mouths closed and not to complain of these things. It is remarkably generous of a man to give that much.

Our St. Viator swimmers are deserving of recognition as men and real athletes. They deserve a great deal more credit and recognition than we are commonly apt to give them. They are worthy of more encouragement than they have been given previously. I am extremely proud of them, not from the standpoint of a coach for a winner, but because I know that they are "real men". That is the way in which I hope the whole school will be proud of them. If you are, you can't lose, because that is the sort of representation of which any school can be proud. "There's not a quitter in a tank load". If you swim—throw in with them; if you can't swim—boost them, it lends buoyancy. If you ever read an advertisement: "St. Viator, a school for men", believe it, because it's the real McCoy. She has them.

Bro. Ed. DesLauriers.

Dear Editor:  
The exhibition of basketball presented by St. Viator College on December 12, 1935, against Joliet Junior College was one of the sorriest spectacles ever witnessed by this former St. Viator student on the local court. And this "former student" has watched St. Viator basketballers for the past ten years. With the advantage of height at the center position, the Viatorians should have controlled the ball

throughout the game. In the first half of the game, the so-called "Fightin' Irish" rarely had the ball in their possession, and when they did have it, appeared to have grave doubt in regard to its proper disposition.

Never in the course of the game did the Viatorian contingent attempt to work a pivot play off the center from the vicinity of their own goal line. Whether this failure is due to lack of intelligence on the part of the players, or to aggressiveness on the part of the center is not immediately apparent. The writer suspects that both lack of intelligence and aggressiveness on the part of the players serve as a handicap to the coach.

This St. Viator team has the material necessary to make it one of Viator's greatest. It may be well for that team to remember that "traditions make fighting men, but fighting men first must make traditions".

Viator teams laboring under tremendous handicaps in the past have created traditions for men on her hardwood courts to maintain. But it, of course, requires great men to live up to great traditions. It demands the impossible of great men when they seek to add to enviable records. Pusillanimity and vacillation accomplish nothing.

The writer would like to witness a great deal of cohesion, combination, and team-work in the Viator team. The Viator quintet unquestionably has its share of brawn; if that brawn commences to think it will win decisively. (With the factors favoring Viator in the above-mentioned game, the score should have been doubled by the so-called "Fightin' Irish".)

In conclusion, the writer would like to remark merely that the St. Viator team is not "putting out". And the team certainly has not yet any "laurels" to live on.

## THE CAMPUS BRIEFS

Many criticisms, favorable and adverse, have come to our editorial ear, and we have always carefully considered every suggestion or complaint. When, therefore, the following communication reached our desk, we made no exception.

Had we felt that the author or authors of the letter were alone in the opinion expressed, we would have made no mention of it here but we have been told from time to time that a part of the student body concurs with them in the sentiment. Our comments, then, are directed, not merely in answer to this particular critique, but in explanation to all who "hunger for a scandal column".

Dear Editor,

"With September came your editorship and with it came the elimination of the best-known column of yester-years, the "Campus Briefs". Why did you break the tradition?

"Disregard your petty objections—give us a good "Briefs" writer—give each individual student a chance to have his name in the school (?) paper. Then last but not least, create enthusiasm and get every campus prowler to read the Viatorian with some eagerness.

"We want something with action.

Anonymous".

The communication smacks of the humorous after we read the reference to our "petty objections", and then proceed to read the author's arguments in favor of a "Briefs" column. (1) "Give each individual student a chance to have his name in the school (?) paper". We are to infer, then, that the average college man longs to see in print his name linked with that of the girl whom he escorted to a school dance; that the average college man yearns to have broadcast to the campus and alumni the fact that he was observed while coming out of one of the local taverns? We are to believe that the student looks eagerly forward to mailing to his parents the copy of the paper which describes his participation in private off-campus revels? The thirst for publicity, then, has reached the point where a man desires his name in print, regardless of the circumstances under which it appears? No, we are forced to declare our faith in the collegian, and to maintain that men are content to keep private affairs private, and to trust in achievement and public action for public notice. As to the question mark after the word "school" in the correspondence, we have been unable to fathom the "subtlety" of the author's meaning.

(2) Next, we are told to "create enthusiasm and get every campus prowler to read the Viatorian with some eagerness". Again we ask, are college men made "enthusiastic" by reading scandal? Can the student with more than twelve years of academic training behind him be made "eager" only by the anticipation of reading sketches of brawls, dinner-engagements and evening parties? If such be the case, and we doubt it, schools have failed, and have failed miserably. Scandal may satisfy the mentality of the "man on the street", but until proved otherwise, we will hold college men above the mob.

(3) And finally, we would consider the demand, "Give us a good "Briefs" writer". We will frankly admit here that at one time we had planned several columns of a light, commentary nature.

## Intercollegiate

There is actually one girl student at Lindsay College, Lindsay, Ontario, whose ambition is to become a "good wife for some man". The others, the survey revealed, would like to become teachers, nurses, stenographers, dietitians, writers, or interior decorators.

Here are some of the answers given by journalism students in a recent test at Northwestern University:

Addis Ababa, king of Riffs. Sir Anthony Eden, captain of the stricken liner Dixie. Nicholas Murray Butler, governor of Oklahoma. J. Edgar Hoover, former president of the United States and author of "The White House Gang."

From Loyola of the South comes this professor's brain child, three students were given the problem, find the number of bricks, four inches square are necessary to make a stone wall four feet by four feet by four feet. At the conclusion of an hour and a half, the students gave up and asked the professor the answer. He said, "None". "Why?" "Because it was a 'stone' wall".

A semetic gentleman was asked what he did at a Ford banquet he had attended. He cryptically replied: "V-8".

"It's a wise cork that knows its own pop", quotes the Quigley "Candle" and continues by telling the story about the rising author and the sweet young thing. Author: "This is the plot of my story: a Midnight scene. Two burglars creep stealthily toward the house. They climb a wall, force open the window, enter the room! The clock strikes one . . . "She (breathlessly): "Which one?"

Harvard University will be 300 years old in 1936, it is the oldest college in the United States.

The person who thinks a question has only two sides never listened to those ordinary college dorm discussion.

The learned Descartes once remarked, "Je pense, donc je suis" (I think, therefore I am). As we look about us, we are amazed at the number who aren't.

From Loyola, they summarize the rise of American civilization, 1929: Marathon dancers. 1930: Tom Thumb golf. 1931: Tree Sitters. 1933: Jig Saw Puzzles. 1934: Hog-calling contests. 1935: "Scratch out the top name and send a dime".

A biology professor at the University of California announced that all the boys and girls in his class would participate in a test to determine whether microbes are exchanged in kissing. On the day of the test attendance was 100 per cent. Each student was handed a sterilized pad by the prof which

But we were soon made to discard any expectations by the almost universal complaint among the students, "I don't have time", or "I can't write". Had several columnists been found, we might have had "something with action".

However, despite our "petty objections" to a "Campus Briefs", we do not lose sight of the fact that the VIATORIAN is a student publication, that it is merely our office to print that which college men desire to read. In consideration of which, we are willing to open these columns to a "Briefs" writer if the student body so desires, and if a columnist offers his services. We are unable to find that columnist. But until students generally ask for scandal, we will continue in our belief that college men are most interested in virile comment than in feminine gossip.

## Red Wine and Brown Bread

Song hits seem to be a pretty fair barometer for indicating the economic condition of this land of more-or-less plenty. When the depression was young and gloom was the thickest, people were moaning things like "Brother Can You Spare A Dime" and that gloom tune that went — "Tired, Tired, Life's Got Me Down". By 1935 the song writer found that he had five cents and she had a nickel, so the citizens sang "Love On A Dime". If one wishes to use this as a basis for prognostication, it would seem that that popular but slippery vagabond, prosperity, must be coming round the mountain because the only thing people are now worrying about is where you blow in and where the music comes out.

The English used by Canadian fathers who taught in a certain boy's school in the United States would, at times, provide their charges with much merriment. It was a custom in this particular school to meditate before dinner on some religious topic. On a certain occasion, one of the good fathers arose before dinner and said, "Boys, today we will meditate on the devil:—What the devil is he, who the devil is he, and where the devil is he".

Journalists with fertile imaginations sometimes turn out strange

copy. Last fall when the Green Wave — our Fighting Irish—played Ferris Institute, they were billed as the "Flying Frenchmen". Shades of St. Patrick!

"A police surgeon in Philadelphia says one is sober if he is able to say 'Susie sat in the soup.'" — Portland Oregonian.

Of course, Susie, your life is your own, and if you want to go around to places like Philadelphia and sit in people's soup, it's all right with us. But what is the public going to think of good old St. Viator if the seniors go about playing such pranks?

A note to the student body from Giles Swashbucket concerning the impending examinations: Students—

You've got a hard fight on your hands. Some of those questions are going to be long and they're going to be tough. You've been in there every day since last September drilling on the fundamentals; learning how to answer these questions. In past quizzes some of you fell down, but you know now what your mistakes were. My advice to you today is: keep your heads. I think every one of you has the stuff it takes. Now fill your pens, grab an exam book and get in there and fight.

—Giles Swashbucket.

That is all. — J. R.

Newspaper advertisements offering \$10 for a football ticket, a ride to the Yale game for a number of undergraduates, "for their company", and an ad asking for an orange and black guinea pig constituted the build-up.

A New York evening newspaper unwittingly helped the hoax along by carrying an interview with Di Kahble, but the plot fell through when student suspicion was aroused by an advertisement in the Daily Princetonian asking for old razor blades "for melting purposes".

## President is Active As City Club Speaker

Since adding the publication of a book to his already long list of achievements, the Very Rev. Dr. Edward V. Cardinal, C. S. V., has been much in demand as an informal lecturer. On January 15, he addressed the Kankakee Women's Club on the practical topic, "An American Looks At The Map Of Europe".

"Scandals In History" was the College President's subject at an enthusiastic meeting of the Kankakee Study Club. The Very Rev. J. W. R. Maguire, C. S. V., is director of the club, which was organized this winter and which is proving eminently popular among the people of the city. Father Cardinal also addressed the Holy Name Society of St. Rose Church on January 14.

## Physic Lab Housed In New Quarters

The Physics laboratory "came into its own" last week when it was moved into the newly-decorated Day Student Lounge. The change was made as the result of the growing number of physics students, and the new quarters were selected because of the lighting facilities and efficient possibilities.

## Shut Valve On Political Machine

Princeton, N. J., — (ACP) — Ephraim E. Di Kahble, Princeton freshman who furnished a nine-days' mystery to students and townspeople here, has been unmasked.

"Di Kahble" is five members of the class of '39 who had the notion that by giving their "man" a big enough build-up, they could elect him treasurer of the freshman class, to the confusion of the university authorities.

was to be kissed and then daubed on the microscopic slide for examination.

From Western Md. College paper: "In grading students on their knowledge, in rating them on their personalities, and in criticizing them for their mannerisms, the instructors at various colleges have long had the upper hand. The table has turned, however, and recently a class of over 100 students in elementary psychology, had the opportunity to submit criticism of their profs. Following are some of the most frequently cited criticisms with the number of times each was mentioned:

Rambling of lectures, 76; twisting mouth into odd shapes, 63; pulling ears, nose or lips, 45; use of pet expressions, 39; using sarcasm, 29; wise cracking, 26; riding students, 14.

# Communism Costs Human Suffering: U. of I. Professor

"Communism As I Found It In Russia" was the subject of a talk given here last month by Doctor A. Sarkissan, instructor at the State University before the International Relations Club.

"I was for the communistic experiment," he prefaced his discussion, "but when I ended my studies in Russia I was against it in any form because I failed to see anything there which will make human life better."

The lecturer declared that the average traveler in the Soviet Republic does not see the poverty and misery of the proletariat. The Russian officials, by strict censorship, he explained, keep human suffering behind closed doors, which are never opened for foreign views.

Doctor Sarkissan admitted that Russia has made great advances in agriculture, commerce, and industry. But he insisted that these strides forward have been made at the cost of human life. He estimated that over 500,000,000 citizens have died of starvation and undernourishment since the inauguration of the first Five Year Plan.

He said that schools have been improved there and illiteracy abolished, but the living conditions of the laborer unimproved and wretched. He added "The reason that might account for this condition is that the Russian is kept ignorant of the outside world; he is unaware that he is living in a dark world".

## Admissions Director In Auto Mishap

Richard Doyle, '35, director of admissions here, was forced over an eight foot embankment in Chicago, while returning to the College on the evening of January 9. Doyle, although knocked unconscious, suffered no ill effects and assumed his daily duties upon his return to the College.

The accident occurred when Doyle attempted to avoid two speeding machines. Crowded over to the side of the road, his car skidded on the icy pavement and swung into the water filled ditch.

## Fr. Munsch Speaks on Mid-Day Program

The WGN radio public heard the message of the Rev. F. E. Munsch, C. S. V., on December 26 when he spoke on the Mid-day Service Program of that station.

## ALUMNI NOTES

Father Thomas Meehan, assistant at St. Angelia's Church, Chicago, and the author of the booklet, **The Catholic Beginnings of Chicago**, was scheduled to give a lecture on the early church history of Chicago at the January meeting of the Holy Name Cathedral Converts' League in the Assembly Hall.

Francis 'Buster' Brockman of Kenrick Seminary paid us a short visit on his way back to the seminary. 'Bus' is in his last year of theology and expects to be ordained June 6.

Wedding bells: Frank Haggarty, H. S. '24, was united in marriage to Miss Marian Cecile Grupe of Chicago in St. Mary of the Lake Church, Chicago, on January 8. About two hundred relatives of the bride and bridegroom attended the reception and breakfast at the Edgewater Beach Hotel. One of the guests present at the wedding was Mayor Bernard F. Dickman of St. Louis. Frank and his bride left for California on their honeymoon, and will be back in Chicago about February first.

Father Capozano, a theologian here in '16 and '17, is now superior of an Oratory in Summit, New Jersey. After he left here, he studied at the Catholic University of America. Later Father Capozano and a Father Paul organized the Fathers of the Attonment. When he had been with them four years, he sailed for Italy, and there joined the Oratorians. He was sent back to America to found their first house on this continent.

The following alumni of Washington, D. C., visited their Alma Mater during the Christmas vacation: Ed. Gallahue, Robert and Allen Nolan, and Burke Monahan.

During Father O'Mahoney's recent trip East, he met the following alumni: James Cronin, of Everett, Mass. Jim is manager of the First National stores in Everett, and wishes to be remembered to all his old friends at Viator, especially to Father Galvin; Charlie Shea, of Medford, Mass. Charlie is now teaching in Medford High School; James L. Dougherty and Joseph Judge of Washington, D. C.

## New Fields Open Second Semester

The inauguration at the semester of courses which have been absent from the curriculum was announced this week by the Rev. Bernard Mulvaney, C. S. V., acting-Dean of Studies. The class schedule will undergo a marked change in February, but the courses listed below include only those which were not offered here last year.

Three non-laboratory courses have been added to the Biology department. Dr. William C. VanDeventer will instruct in Public Health, two hours; Physiography, three hours, no prerequisite; Heredity, two hours, Senior college prerequisites: Biology 11 or Sociology 48 or 53.

Classes in Statistics have been added to the Economic department. Three hours credit will be granted. Professor John J. McNamara will conduct the classes.

Art of Poetry, under Professor Michael Maloney, has been made a prerequisite for English majors. The dean announces that the course will be credited with two hours of work.

### CISCA NOTICE

Cisca urges the student body to make the Catholic Unity Octave which began January 18 and ends on January 25. The spiritual benefits to be gained are great, and every Catholic will appreciate the opportunity to gain them.

## WHOLESALE—

(Continued from page 3)

predictable, are possibilities for the fields of medicine, chemistry and general industry. The neutrons, streaming in all directions from the big magnet, are not stopped by any known type of shield, not even by lead. They pass through the yard-thick coils of the big magnet as if it were so much paper, and nothing will perceptibly slow them down except water.

To experiment in safety the California physicists have set up a remote control panel 50 feet distant from the magnet, with a tank of water forming a three-foot thick barrier.

As easily controlled as an electric light, the beam is produced by a 12,000 volt current, "stepped up" to 4,500,000-volt beam of neutrons.

## THE LIBRARY LOG

As the New Year begins we pause to reflect on how we can improve our habits. May we suggest that each student allot at least an hour to profitable reading in the Library during the second half of the scholastic year. The benefits derived from reading good books are not immediately apparent, but they are manifold, and make themselves felt eventually.

We also wish to take this occasion to express our gratification over the splendid manner in which the students have made use of the Library this year. The cooperation they have given and the courtesy they have shown have been greatly appreciated. However, it is urged that they refrain from taking Reserve Books to their rooms. Books are placed on reserve by teachers for use by the entire class. In taking a reserve book to his room a student deprives a fellow student of the opportunity of using it.

Father Munsch has donned his moleskin hip boots and encircled with a belt of cartridges has gone gunning for big game—the Dictionary of National Biography and the Fourteenth Edition of the Britannica — but he also has a fowling piece and small shot for lesser game.

By clearing our shelves of duplicates the Library has been able to offer the students good books at reasonable prices. New values will be offered from time to time. Watch the notices on the Library door for titles and prices.

Several of our standard books have been rebound. They have been placed on the New Book Shelves for the convenience of students.

### New Books

**Imperial Palaces** by Arnold Bennett.

**Things That Have Interested Me** by Arnold Bennett.

**Contemporary Drama of Russia** by Leo Wiener.

**What Bird is That?** by F. M. Chapman.

**Mark Twain** by Payne.

**Riceyman Steps** by Arnold Bennett.

**The Embryology of the Pig** by B. M. Patten.

**Plant Ecology** by W. B. McDougall.

**The Technique of the Novel** by C. H. Grabo.

**The Grammar of the Arts** by C. J. Holmes.

**Animal Ecology** by A. S. Pearse.

## ALUMNUS HEADS CHARITY DANCE

## What Is MORTEX?

Perfect  
Preservative  
Protection

Mortex  
5

Liquid  
Emulsified  
Asphalt

A perfect protective coating for brushing, spraying or trowelling, being a high grade Mexican asphalt dispersed as minute particles in water for convenient handling. It is applied cold. As the moisture evaporates, a black, flexible rubberlike film remains which is waterproof, acid, alkaline and fire resistant, and shuts out infiltrations of air.

Mortex 5 does not crack or peel in coldest weather, nor blister, sag nor run on hottest days and always remains elastic. It is odorless, tasteless and noninflammable and can be safely used in confined places. It readily bonds to all clean surfaces, and also to damp surfaces, but should never be applied over dusty, dirty, greasy or oily surfaces or an imperfect bond will result. Use only on clean surfaces to obtain perfect satisfaction.

Used for DAMPPROOFING WALLS and FLOORS, PAINTING GALVANIZED IRON, PROTECTING CLEAN IRON AND STEEL, ROOF REPAIRING and as an ADHESIVE. It can be mixed with Portland Cement and dries out a soft gray color for patching deteriorating concrete.

EVANS, DeKALB—  
(Continued from page 1)

ways a true Viatorian while playing the game. We don't measure success in wins and losses but rather upon the manner in which you win or lose. That to us Old Grads means more than anything else in the world. Continue to be true Viatorians and we will be with you always—win or lose".

Coach John McNamara: "It has been a pleasure to work with you, since you gave me such splendid co-operation. Injuries sapped our strength as a team and the tough opposition did the rest. Your morale and squad spirit were great and I do believe and hope it will carry over to next year. I thank you for your confidence in me and assure you that next fall we will do better".

Co-captain Frank Krauklis: "To the members of the 1936 squad; Work hard, co-operate with the coach, don't play as a one man team, if you have tough luck, take it on the chin and come back grinning! Good luck and best wishes for a victorious season".

Co-captain Ray Roche: "We tried

but the breaks were against us. I'm sorry I won't be here to play again. Carry on!"

Father O'Mahoney, provincial: "Sportsmanship is synonymous with Viatorianship. Remember that always, as you have done in the past, and we won't worry about the win and lost column".

Frank Rainey, '08: "Here is the message the Old Timers asked me to deliver to you young fellows: 'Play like hell! work like hell! and give hell to your opponents and the score will take care of itself!'"

The other speakers all expressed their confidence in Coach McNamara and the squad. The Very Reverend E. V. Cardinal, president of the College closed the banquet with a prayer for the repose of the soul of John Stanford, Viator athlete, who met his death a year ago in an automobile accident in Connecticut.

Nazis Top Day Dogs, 27-17

The Day Dogers displayed a fine brand of basketball to lead at the half way mark, 8 to 6, but the Nazis spurted in the second half and gained their second league victory by a 27 to 17 count.
